

COLLEGE PREP CHEMISTRY 1, 2 HONORS

Course Length: 2 Semesters

Credit per Semester: 1.0 (Science requirement or Elective)

Grade: 11, 12

Prerequisite: College-Prep Chemistry or Chemistry 1, 2 Honors or department approval.

Math Prerequisite: Completion of Algebra 1, 2.

This is a college-level chemistry program emphasizing chemistry concepts in much greater depth than found in the College-Prep Chemistry course. College-level texts, laboratory situations, and laboratory instrumentation are used. Independent study is utilized whenever possible. Students are encouraged to take the National Advanced Placement Examination near the end of the course.
